Dimensions in meters

## **Lighting**

Includes house lights, stage wash, stage key light, moving heads, ambient room lights  
LED strobe  
Smoke hazer

Red Laser array.

Venue lighting for events will be operated by the in house team. For more advanced lighting operations with precise cues or technical programming will require support from a lighting engineer who we can arrange to be available with prior notice.

Lights mounted on a central raised ring or from truss on the two railings at both ends of the room.

Additional lighting options available following prior discussion and agreement

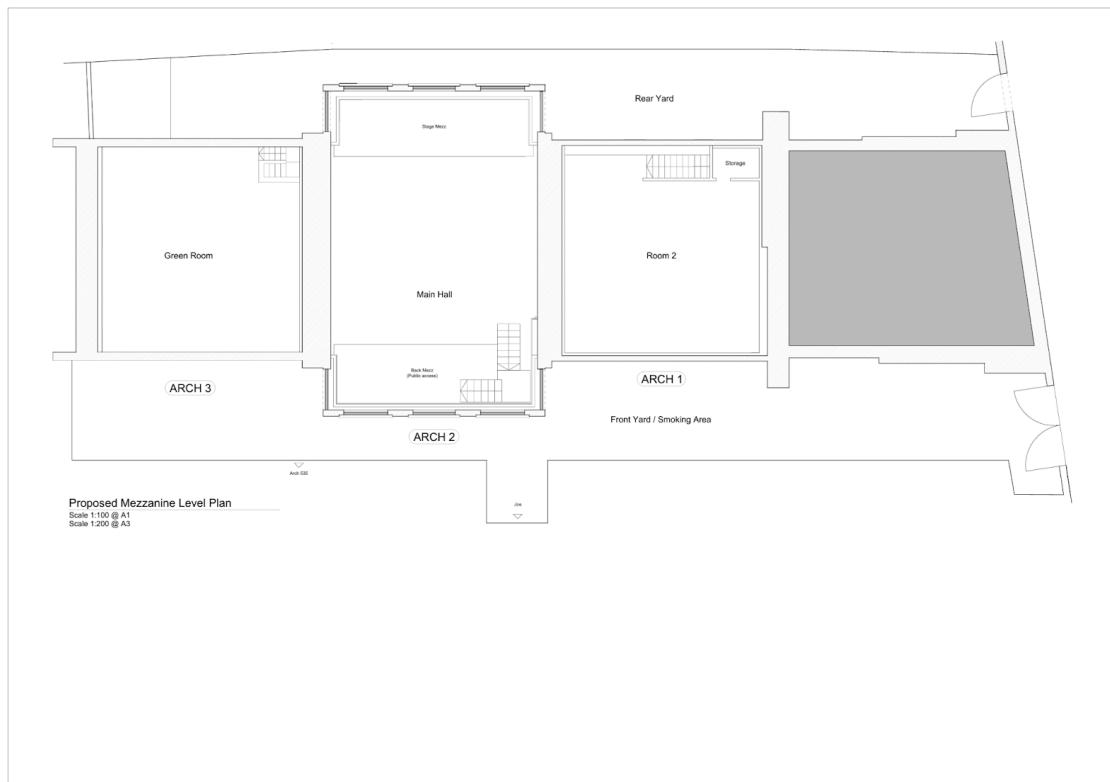

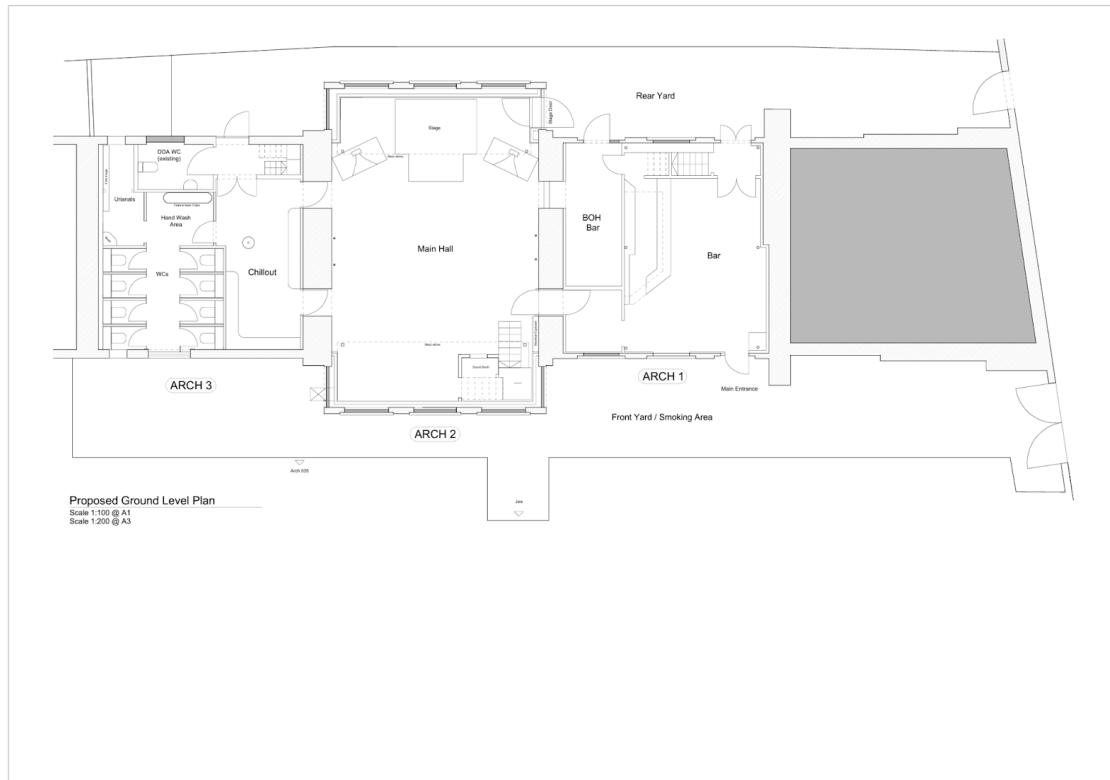

#### **Additional AV Equipment**

If any additional audio/visual equipment is required please let us know and we will hope to be able to accommodate you. We have access to a large range of equipment and can provide very competitive rental prices.

#### **Green Room**

Our Green Room is available for use by the promoter and performers. This is a shared space also used by the in house staff as office space. If privacy is a requirement for any performers this can be discussed. The room has seating, mirrors, running water, plates, mugs, cups, utensils and a fridge. Power is also available with multiple sockets. Please note, access is via steep set of wooden stairs. We are planning to change this to something more user friendly. If an alternative area is necessary this can be discussed.
